## **Stratix appoints Gina Gallo President**

Norcross – April 12, 2007 – Stratix Corporation announces the appointment of Gina Gallo to the position of President.

We are pleased to announce the appointment of Gina Gallo as President of Stratix Corporation. Previously she served as Stratix's Vice President of World Wide Sales. Over the last two years, Ms. Gallo has been instrumental at Stratix in building the strategic selling teams contributing to the double digit growth to over \$100 million. In her new role, Ms. Gallo will be responsible for the company's strategic planning and execution for each operating business unit. As a seasoned professional she has successfully lead organizations through periods of significant growth and transformation. Ms. Gallo has extensive background in the areas of sales, marketing, technology services, and software.

"We are delighted in announcing this well deserved appointment for Gina. Her leadership, focus and direction enabled our company to grow at an incredibly rapid pace" said Dave Knowlton, Chairman, Stratix. "Gina's industry knowledge, operational expertise and passion for excellence have proven to be a differentiator for Stratix. We are looking forward to taking the next steps in the evolution of Stratix as a leading provider of business mobility solutions" commented Bonney Shuman CEO Stratix.

Prior to joining Stratix, Ms. Gallo was Vice President Sales for the Eastern Division of Symbol Technologies (now Motorola) responsible for all lines of business and market segments for both sales and services. From 1989 to 1992 Gallo worked for GRiD Systems, having responsibility for both portable and pen-based computer sales. Prior to GRiD Ms. Gallo began her career with Xerox Corporation in copier division. She graduated with a Bachelor of Business Administration in Marketing from Bryant University in Rhode Island.

Ms. Gallo resides in Alpharetta, Georgia with her husband and two children.

### **About Stratix Corporation**

Stratix Corporation is a WBENC-certified woman owned business. Leveraging extensive supply chain expertise, we provide all aspects of mobility solutions and services. Stratix integrates software and hardware such as handheld computers, WLAN, WWAN and RFID technologies.
