Rugged Food Distribution Solution Offers High Performance and Lower Costs

Fast Pace Required in a Tough Environment

Food service distribution drivers keep going regardless of the weather. In rain, heat, or snow, they average 400-700 scans on a route. Not only can it be a harsh environment, but they often face low light conditions and damaged barcodes. Because drivers frequently wear gloves, their device screens and touch sensitivity need to be carefully considered. Devices have to be rugged, reliable, and deliver great experiences with no mis-scans.

Together with Samsung and Scandit, Stratix offers a rugged device solution that delivers enterprise-grade performance, TCO reductions, and our industry-leading support. Drivers are more efficient because they can use one device for additional tasks like communications, time clock management, and information finding.

The Samsung Galaxy XCover Pro with Scandit is Ideal for Loading and Unloading

For the durability and reliability required in the challenging delivery environment, Samsung, Scandit, and Stratix combine for a future-proof solution. Get the latest in user-friendly, lightweight, and cost-effective smartphone technology from Samsung, continually improving software from Scandit, and Stratix's best-in-class mobile managed services.

XCover Pro Rugged Credentials

Superior Design
- IP68 water and dust-resistant standards
  - 30 minutes underwater at a depth of 1.5 meters
  - Coated with ice for more than 6 hours

Scandit Credentials

- Scandit's innovative MatrixScan (Multi-code scanning + AR) provides time savings of up to 40% while providing drivers with real-time information on how to handle special items and an enhanced user experience.

- Scandit supports a variety of processes that allow future innovation possibilities vertically (Matrix Scan AR) and horizontally (OCR, ID Scanning, Object Recognition)

## XCover Pro with Scandit Made Even Better with Stratix Managed Mobile Services

Stratix excels in the end-to-end management of the entire portfolio of Samsung mobile devices, including the Galaxy XCover Pro. Our services include:

- **Mobile solution consulting** – Rely on our years of expertise to guide you to the perfect enterprise mobile solution program for your food distribution needs.

- **Project management** – We're experts in administering large-scale mobile solution programs, on-time and on budget.

- **Superior mobile deployment –** Our U.S. advanced Mobile Integration Center kits and configures thousands of devices with a personalized out-of-the-box-ready experience.

- **Endpoint management** – Devices can be managed with Samsung's Knox security solutions, providing security, customization, and easy updating.

- **itrac360** - Our proprietary asset management portal gives you 360-degree visibility into your entire fleet of mobile assets, enabling better analytics and control of your total cost of ownership.

- **Industry-leading support** – Our on-shore 24/7 help desk is staffed by highly-trained experts who know your environment. We also offer rapid repair turnaround and spare pool management to minimize downtime.

- **Mobile Device as a Service** - Mobile hardware, software, and services rolled into a convenient monthly per-device price moves CapEx to OpEx.

Decrease Hardware Total Cost of Ownership

In a landscape of declining operating profits, fierce competition, and high maintenance costs, companies must maximize their ROI. The Samsung XCover Pro with Scandit solution can decrease hardware TCO by up to 60% when compared to traditional dedicated scanning hardware with no sacrifice in performance.

With Stratix, you get a logistics expert that provides unparalleled service, and we have the industry-leading Net Promoter Score to prove it.

Why Stratix

As North America's premier enterprise mobility specialist, Stratix focuses exclusively on mobility services and has over two million devices under management. Our services are backed by specialized teams to consult, deploy, manage and support your mobile program, guaranteeing nonstop mobility and a consistent brand experience for your customers and employees.

Why Samsung

As a premier global mobility provider, Samsung offers a comprehensive portfolio of advanced smartphones, tablets, wearables, and associated services. Samsung's diverse portfolio of business products is designed to boost employee productivity, improve customer engagement, and simplify IT management.

Why Scandit

With over 100 million active mobile devices, Scandit enables enterprises and consumers to change the way they interact with everyday objects and augment the physical world with real-time data captured by scanning barcodes and recognizing text, objects, and other visual identifiers using smartphones, tablets, wearables, drones, and robots.
