

Modernize Mobility with Stratix + T-Mobile SmartRefresh

In today's fast-paced business landscape, mobile devices are mission-critical. But aging hardware, outdated connectivity, and fragmented management create unnecessary costs and complexity for IT, procurement, and operations teams.

SmartRefresh from Stratix and T-Mobile empowers organizations to modernize their mobility strategy by refreshing legacy devices, upgrading connectivity, and simplifying lifecycle management—all through a unified, cost-effective solution.

Get Efficiency and Cost Control

T-Mobile's nationwide 5G network and Stratix's managed mobility expertise streamline every phase of your mobile environment.

Refresh and Upgrade

Seamlessly replace aging devices with modern, secure, and fully supported solutions for both frontline and knowledge workers.

Savings with Simplicity

Combine Stratix lifecycle management, Telecom Expense Management (TEM), and procurement automation with T-Mobile's connectivity to gain predictable costs, contract visibility, and measurable savings.

Always-On Workforce

Keep teams connected and supported with zero-downtime device replacement, proactive monitoring, and real-time expense insights.
